

## **PRACTICAL WORK №7. MAKING A TERRARIUM**

**Pupil's name** \_\_\_\_\_

**Grade** \_\_\_\_\_ **Data of the experiments** \_\_\_\_\_

**OBJECTIVE** (write down, the purpose of the work as a whole)

---

---

---

**INTRODUCTION** (write down the necessary theoretical data for the laboratory work)

---

---

---

---

---

**MATERIALS** (write down what materials and equipment you used during the experimental work)

---

---

---

---

---

## HOW TO PERFORM A LABORATORY EXPERIMENT

---

---

---

---

---

---

---

---

---

---

### RESULTS (Draw conclusions as you answer the questions and record your answers in your notebook):

*What plants can be used in the terrarium and how to choose them correctly?*

---

---

---

*What is the proper way to care for plants in a terrarium?*

---

---

---

*How can ventilation be provided inside a terrarium?*

---

---

---

*What uses can terrariums have besides being used as decorative elements?*

---

---

---

### CONCLUSION
