

**STEAM.KZ**

## PRACTICAL WORK. COMPILATION OF THE RED BOOK OF KAZAKHSTAN

**Pupil's name** \_\_\_\_\_

**Grade** \_\_\_\_\_ **Data of the experiments** \_\_\_\_\_

**OBJECTIVE** (write down, the purpose of the work as a whole)

---

---

---

**INTRODUCTION** (write down the necessary theoretical data for the laboratory work)

---

---

---

---

---

**MATERIALS** (write down what materials and equipment you used during the experimental work)

---

---

---

---

---

# HOW TO PERFORM A LABORATORY EXPERIMENT

---

---

---

---

---

---

---

---

---

---

## DATA (record the data)

Name of the area	Red Book animal/plant			Degree of endurance	Scientific significance
	Kazakh	Russian	English		
Abay					
Akmola					
Aktobe					
Almaty					
Atyrau					

East Kazakhstan					
Zhambyl					
Zhetysu					
Western Kazakhstan					
Karagandy					
Kostanay					
Kyzylorda					
Mangystau					

Pavlodar					
North Kazakhstan					
Turkestan					
Ulytau					

**RESULTS** (Draw conclusions as you answer the questions and record your answers in your notebook):

*What is the significance of the Red Book of Kazakhstan?*

---

---

---

*Give examples of three plants and three animals listed in the Red Book of Kazakhstan.*

---

---

---

*What do you think can be done to prevent animal and plant species from being included in the Red Book?*

---

---

---

## CONCLUSION

---

---

---

---

---

---
